Final Tests Tapescript

Test 1

Many animals and plants live in the Nile River. You can find big animals like crocodiles swimming in the water. There are also small insects near the plants on the riverbank. Fish, birds, and green plants make the Nile a beautiful place full of life.

Test 2

To take care of your health, do some sports like football. Football helps your muscles and makes you strong. Exercise increases energy and improves mental health. Exercise also reduces stress. When you play a sport, you feel happy. Sleep well every night to stay healthy and be ready for the next day.

Test 3

Sometimes, the weather can be very strong. A thunderstorm brings loud sounds and heavy rain. A sandstorm blows sand everywhere. A flood happens when there is too much water. A drought is when there is no rain for a long time. A wildfire is a big fire that burns trees and grass.

Test 4

There are many places in our neighborhood. We buy food from the supermarket. Children play in the park. People read books at the library. My parents drink coffee at the coffee shop. On weekends, we go to the bakery to buy bread. I love all the places in my neighborhood.

Test 5

Egypt has many important natural resources. The Nile River gives us water. Farmers grow cotton and wheat near the river. Egypt also has natural gas, which is used to make fuel and electricity. These resources help our country grow. The Nile and natural gas are two of Egypt's most valuable resources.

Test 6

Some animals live in the desert. The desert is hot and dry. Camels live there. They eat plants to stay strong. Lizards hide under rocks. Snakes move on the sand. Foxes and owls come out at night. These animals can live in hot places.

Test 7

Omar wakes up early at 6:30 am. He brushes his teeth and eats a healthy breakfast. At 7:15, he walks to school. After school, he finishes his homework and helps his mother set the table. In the evening, he plays football with his friends. At night, he has dinner with his family and goes to bed at 9 o'clock.

Test 8

Water is very important for all living things. People need water to drink, cook, and clean. Farmers need water to grow crops like wheat and rice. Animals also need water to live. We must save water and not waste it. Clean water helps us stay healthy and keeps our world safe and green.

Test 9

The heart is a very important organ in your body. It works like a machine. It beats all day and night to pump blood through your body. This blood carries oxygen to your brain, muscles, and other organs. The heart keeps you alive and healthy. So, take good care of it!

Test 10

Oil and natural gas are used to make fuel and electricity. We grow cotton, wheat, and many kinds of fruit. The land in the Delta region and along the Nile is fertile. It helps us grow food. Egypt's deserts contain gold, iron, and other minerals as well. They're used to make jewelry, build buildings, and help our country grow.

Test 11

Everyone admired the big ship. It was huge and proud as it sailed across the ocean. I was just a little digger on the shore—not big, not popular—but always ready to help. One morning, I watched the big ship come close to shore to load some cargo. But then, something went wrong. It got too close and got stuck in the thick, heavy mud.

Test 12

We live in the New Administrative Capital, east of Cairo. It's a smart city with green areas, modern roads, and many offices. The tallest building in Africa, the Iconic Tower, is here. It has 80 floors. From the top, we can see the whole city. Life here is peaceful.

Test 13

Under the earth, we find precious mineral resources like gold, diamond, copper, and iron. These are used every day to make important things. Gold is soft, shiny, and easy to shape. People use it for coins and jewelry. I love gold rings! Diamond is a rare mineral—even more valuable than gold!

Test 14

Copper is a strong metal which we use electrical wires, pipes, and tools. It's cheaper than gold. Egypt gets most of its copper and gold from the Eastern Desert. Iron is super strong. It helps make cars, ships, airplanes, and bridges. It's found in many places in Egypt.

Test 15

One summer, the weather became extremely hot. The sun was strong, and the pond started to dry up. The frogs got worried. They knew they couldn't stay in the pond any longer because there wasn't enough water for them. They decided to leave the pond and look for a new home where they could live safely.

Final Tests

Test (1)

In the river park, a huge crocodile sometimes hides between the branches and water weeds. Small fish eat water weeds. Visitors sit in the shade and enjoy some snacks while watching the animals safely.

Test (2)

Last year, our town faced many problems. A wildfire burned a small forest, and a strong sandstorm caused damage to shops and houses. After the storm, people bought fresh loaves from the bakery and ate lunch at a nearby restaurant. At the weekend, families visited a theme park to forget the hard days.

Test (3)

Every Friday, students visit a museum in their neighborhood. They learn how electricity moves through wires and how sunlight helps plants. Guides show minerals and old treasures made of iron. People often hang out in the garden after the visit to avoid crowding in town centers.

Test (4)

Yesterday, the class visited a nature center. They saw a small creature on a tree trunk near long branches. Inside the kitchen room, a chef showed them the ingredients and spices used to fry vegetables. He said healthy food gives the body nutrients and helps the heart pump blood well.

Test (5)

Last Saturday, students visited a pond near a small canal. They saw a strange frog jumping between the water and the grass. A doctor explained how patients get treatment for disease and why good habits help mental health. Everyone admired the hero who saved animals from danger.

Test (6)

Yesterday morning, the class walked around their neighborhood. They visited a bakery where the baker was cutting fresh loaves into slices. Then, they went to a restaurant to watch a chef fry vegetables in red sauce. After that, they stopped at a coffee shop to buy groceries for a school cooking project.

Test (7)

Last Sunday, the students visited a pond. They saw a huge lizard hunting insects near water weeds. A strange creature climbed the tree trunk and rested on the branches. Students sat quietly under the shade to watch safely.

Test (8)

Yesterday, the students visited a small lake near their school. They saw a strange creature moving between water weeds and eating insects. A doctor who worked in Healthcare explained how patients get treatment and medicine. He told them that strong muscles and bones help the body carry weight easily.

Test (9)

Last Monday, the class visited a farmer who talked about weather problems. He explained how a drought affects crops and how an irrigation system helps water the fields. He also said a sandstorm can damage farms, and a flood can fill the canal with dirty water. The students learned how to protect our planet.

Test (10)

Last year, miners discovered rare minerals deep underground. These minerals were precious metals like copper, which was important. Some minerals are renewable, while others are not. Diggers play an important role in extracting these metals.

Test (11)

Last summer, the class went to the park. They saw a huge lizard hunting insects near a small pond with water weeds. A strange creature climbed a tree trunk and rested on the branches. Students sat under the shade to watch quietly.

Test (12)

The chef prepared a meal using garlic, chickpeas, and lentils. He fried some

vegetables in red sauce and boiled others. Students watched him slice bread and add spices and ingredients carefully. He said that sharing food is important, and being selfish is not good.

Test (13)

Every morning, paramedics and healthcare workers help patients stay healthy. They explain how the heart pumps blood through vessels to carry nutrients to organs. People exercise to keep muscles strong. They show that the fist was used to show how blood moves through the body.

Test (14)

Last Saturday, the class visited a small village. They saw old cottages and barns along the hills. The community center was busy with some activities. Students climbed the tall tower and enjoyed the peaceful view. The government office in the village helped organize the visit and provided information about the area.

Test (15)

Every morning, students practice exercises to stay fit. They learn how muscles and bones work together and how to maintain healthy weight. Teachers explain how good habits and healthy snacks help reduce stress. Mental health is important, and regular exercise in the morning helps everyone feel strong and happy.

Final Tests

Test (1) Page 221

Life in our community is full of activities. Every morning, children go to the club to play sports. At lunchtime, families enjoy meals at local restaurants. In the afternoon, some people visit the bakery for fresh bread. The coffee shop is busy with friends meeting. Everyone loves going to the theme park on weekends.

Test (2) Page 224

The Nile River is very important for Egypt. Many animals live in and near the river. Small fish eat water weeds, while birds eat insects and small fish. Crocodiles are strong hunters that catch large animals. People need the river for water and farming. We must protect our river.

Test (3) Page 227

Last week, our town faced extreme weather. A strong flood covered the streets and damaged homes. After that, a sandstorm made it hard to see. Then, a heat wave came, and the weather stayed very hot for days. People felt tired, and farmers worried about their crops. It was a very hard week.

Test (4) Page 230

Doing sports is good for our body and mind. It makes our muscles stronger and helps us feel happy. Swimming helps us breathe better, and football gives us more energy. If we feel tired, eating fruit before exercising is a great idea. Healthy habits keep us active and fit.

Test (5) Page 233

Water is important for all life. People drink it, clean with it, and cook food. Animals look for it in rivers. Plants grow better with water. Water is part of clouds, oceans, and even sweat. Without water, life stops. We must protect water around us.

Test (6) Page 236

The heart is one of the most important organs of our bodies. It pumps blood to all parts of our body. Blood carries oxygen and nutrients to every cell. Blood moves through tubes called blood vessels. To keep our heart strong, we should eat healthy food, sleep well, and drink water.

Test (7) Page 239

Doctors check people and diagnose diseases. Nurses give patients care and support. Pharmacists give medicine and explain how to use it. Paramedics take people to hospitals. They help in emergencies. All these healthcare workers keep us healthy in our community. We should all thank them.

**Test (8)**

Page 242

Koshari is a popular dish in Egypt. First, we cook rice and pasta. Then, we boil lentils in water. We cut onions and fry them until crispy. To make the red sauce, we fry garlic and add tomato sauce, vinegar, and spices. At the end, we mix everything and put the sauce and onions on top.

Test (9)

Page 245

Sandstorms were strong in Ancient Egypt. They brought hot winds with sand everywhere. People couldn't see or breathe well. They stayed inside to be safe. They built strong houses using thick mud bricks. The Ancient Egyptians didn't have modern machines, but they found smart ways to survive.

Test (10)

Page 248

In villages, farmers keep animals in barns. They have cows, sheep, and chickens. Barns are usually near fields, so it's easy to feed the animals. Every day, people clean the barns and give food to their animals. Barns protect animals from heat and rain. They are simple but help farmers take care of their animals.

Tom loved a big tree in his garden and used it for many things. He made crowns from its leaves, ate its apples, and rested in its shade. After many years, Tom left home. When he returned, he found the tree weak and the branches bent. Tom realized he had been selfish and began to care for it.

TEST 2

The heart is one of the most important organs in our body. It pumps blood to every part of the body. Blood carries oxygen and nutrients to cells and removes waste. The heart is a strong muscle that works nonstop. Eating healthy food, sleeping well, and exercising help keep the heart strong and healthy.

TEST 3

Ancient Egypt had weather that helped farmers grow crops. The Nile River brought rich soil when it flooded, but sometimes floods were too strong and damaged farms. Droughts happened when there wasn't enough rain. Sandstorms, with strong winds and sand, made it hard for people to see. Egyptians used simple tools to survive.

TEST 4

Egypt is building new smart cities to reduce crowded areas. The speaker lives in the New Administrative Capital near Cairo. The city has green spaces, important buildings, and modern technology for roads and energy. The Iconic Tower, the tallest building in Africa, is located there. People enjoy peaceful, comfortable lives in the new city.

TEST 5

A little digger watched a big ship get stuck in thick mud near the shore. Big machines tried to help but failed. The small digger said, "Just watch!" and started digging carefully around the ship. After a long time, the ship finally floated free. Everyone realized that even small machines can do great things.
